

StudioTek™ 130 G3

Stewart®
FILMSCREEN

StudioTek 130 G3 is a flexible front projection screen material that is formulated to provide optimized white field uniformity unmatched by competing gain screens.

StudioTek 130 G3 is over 30% brighter than a matte-white screen surface. Certified by THX, StudioTek 130 G3 is the reference standard projection material within the AV industry.

- Over 30% brighter than matte-white material
- Studio industry's standard reference screen
- Re-formulated optical coating allows for enhanced focusing capabilities
- Superb color and white field uniformity
- Certified by THX
- Certified by the Imaging Science Foundation (ISF)

Material Type	Flexible Front Projection
Maximum Size	40' x 90' Seamless
Peak Gain	1.3
Half Gain	80 Degrees
Ambient Light Rejection Value	17%
Ambient Light Resistance	N/A
Minimum Throw Distance	1.3 x Image Width
Edge Blending Properties	Fair
Passive 3D use	No
Lay Flat Quality	Excellent
Flame Resistance	Yes
Perforate	Yes
